

CONTENTS VALUE GUIDE

This document will help you assess the value of your house contents to be able to source the right insurance package. If you have any difficulties filling this in you can reach us on +356 2205 8580 or send an email to info@tcsinsurancebrokers.com

The value you choose should represent the full value of your contents as new at the time of loss or damage. This means that no amount for depreciation needs to be taken into account as values are on a “New for Old” basis. The only exception to this rule is clothing and linen where an amount should be deducted to reflect wear and tear.
